## CZAR'S MEN FIGHT CHINESE BANDITS

Sharpshooter Force Japanese  
Cavalry To Retreat.

### NEWS RECEIVED BY JAPANESE

From Reports There Seems To Be Very Little Fighting Going on at the Front as Both Sides Only Report Small Engagements.

St. Petersburg, April 8.—The efforts staff, Kharkevitch in a dispatch to the general staff dated today says:

"Yesterday our sharpshooters forced the Japanese cavalry to retire from Erdazehe to Tsulushu.

"One of our detachments on arriving on the morning of April 4 at Tsintatun engaged the enemy who had 6,000 Chinese bandits with them. I have not received a report of the results of the battle."

Tokio, April 7.—3 p. m.—The main force of the Russians which was recently defeated in the neighborhood of Chinchiatun, has deviated towards Shumiencheng, and a part of it has retreated along the Fenghua road. On the evening of April 5 no Russians were to be seen south of Hsinlitun, 8 miles north of Chinchiatun.

A small force of Russians is occupying Taliso, 26 miles east of Wtuyanpaomen.

### TRY TO SMOTHER AGITATION.

Police Authorities Use Drastic Measures in Many Russian Cities.

St. Petersburg, April 8.—Chief of the chief of police to smother the political agitation has led them even to invade the cemeteries in their search for evidence of treason.

It has become the practice of students to place on the graves of the comrades who were active or who suffered in the cause of freedom were each bound with ribbons on which political sentiments are inscribed. The police now make nocturnal visits to the cemeteries in search for these treasonable mottoes which are promptly confiscated. But being ignorant the policemen make curious mistakes. The other day a harmless inscription in Greek simply expressive of sympathy, was seized and on Wednesday a red ribbon attached to a wreath on the grave of a well known official being interpreted by the police as a revolutionary emblem which not only cut off but created so much alarm that a general order was sent out to all vendors of mortuary wreaths prohibiting the sale of red ribbons.

### 475 MEN BURIED ALIVE.

As Result of Terrible Earthquake in British India.

Lahore, India, April 8.—Four hundred and seventy men of the Gurkha regiments were buried alive as a result of the earthquake at Hill station of Dharmasala, according to the latest information from that place. The report adds that it is impossible to rescue the entombed men.

The greatest difficulty is experienced in procuring news from Dharmasala. The telegraph staff at the station there was practically wiped out, and a temporary office has been opened 12 miles from the town, but the facilities was most scanty. The Kangra valley is said to have been devastated and it is reported that the town of Kangra was reduced to ruins with great loss of life. No confirmation of the report is obtainable as the telegraph station at Kangra is wrecked.

### Conductor Killed by Brakeman.

Orangeburg, S. C., April 8.—Conductor Charles Oliver, of the Southern railway, in charge of a freight train at Sifton, 3 miles from this place, was killed by brakeman William Mickie. The brakeman walked to Orangeburg and gave himself up. He stated that Oliver assaulted him without cause and stabbed him in the shoulder. Picking up an iron bar Mickie threw it and struck Oliver on the head, the blow crushing the skull. Oliver was a man of 30 years of age and leaves a family.

### WANTS RECEIVER DISMISSED.

Man Who Is Charged with Fraudulent Use of Money Seeks Injunction.

Palm Beach, April 8.—Counsel representing Francis, who is in prison here, demanding \$70,000 bail, charged with using the mails to defraud, presented a petition in the United States district court today for a rule to vacate the receivership by which the property of Francis has been attached in the interest of creditors of the Providence Investment bureau. In presenting the petition, the counsel argued that the property of Francis had been attached without due process of law, and without a hearing. Counsel added that Francis was arrested for his connection with the Storey Cotton company and therefore should not be included in the receivership proceedings instituted against Frank C. Marrin and W. H. Lattimer, who were at the head of the investment bureau and who were now fugitives from justice.

Counsel for J. Hector McNeal opposed the granting of the petition, saying that "Francis carried on a fraudulent business through the mails together with Lattimer and Marrin and that in the interest of the creditors of the Providence Investment bureau, the property should be held by the receiver. The counsel said he did not propose to let the assets get into the hands of the promoters, where it "would disappear."

### NONUNIONISTS ARE ATTACKED.

Plant Which Employes Them Destroyed by Flames.

Chicago, April 7.—Following by only a few hours a vicious attack by union pickets in two employes of the Art Bedstead company, the plant of that concern at Thirty-seventh Place and Rockwell street, has been ravaged by fire, causing a loss estimated at \$100,000.

For four weeks a strike has been on at the plant, and nonunion workmen frequently have been harassed by pickets.

The blaze started with a series of explosions in the shellac department. The first blast hurled the watchman, George Hardy, and Matthew Grinalk, across a room adjoining the shellac department, painfully bruising both.

A few hours before the fire started a dozen men who had been watching the plant attacked Peter and Probus Andrews, brothers who are employed by the concern.

Both men were knocked down, kicked and beaten, and were unconscious when the police arrived. The assailants escaped.

### INSURANCE MAN DISAPPEARS.

His Accounts Are All Right and His Disappearance Is a Mystery.

New York, April 8.—The World today says:

After writing and mailing an endearing letter to his wife, Floyd E. Rock, of Malone, N. Y., district manager for northern New York of the Washington Life Insurance company, disappeared on Sunday from the Empire Hotel, and has not been seen since.

In the letter to his wife he said that he intended to go through Chinatown and the slums Sunday night as he had never seen the sights there. Rock had with him when he left Malone Saturday to make his monthly report to the head office here \$4,130. The state manager of the company, S. H. Heard, together with the missing man's father, A. F. Rock, have instituted a search. The police so far have been unable to get any trace of Rock in Chinatown. State Manager Heard said last night:

"Rock's account with the company is correct in every detail."

### Smiths Treated as Guests

Cincinnati, April 8.—By order of District Attorney Jerome, of New York, J. Morgan Smith and wife, who are in the county jail here pending the result of the contest over their extradition to New York, under a conspiracy indictment there, have been placed on the list of guests instead of prisoners at the jail. They are still detained under arrest, but they are to have the best food the market affords, and otherwise be allowed everything to which they have been accustomed except their liberty.

## THE DAILY GRIND AT TALLAHASSEE

Bills Coming in at a Very Lively Rate Now.

### ALACHUA CO. IN THE HOUSE

The Insanity Bill to be Repealed—A Measure to Regulate the East Coast Railroad Rates—The Brown-Baskin Case Not Yet Settled.

Tallahassee, Fla., April 7.—In the Senate Thursday a bill was introduced by Senator Crill for a geological survey.

Senator Scott: A bill to repeal the present law making incurable insanity ground for divorce.

Senator Crill: A bill to encourage the Florida East Coast Railway to construct its line on southward to Key West. The purpose of the bill is to fix the rates of the road so they cannot be interfered with except by act of the Legislature. This bill will be watched with interest, because if it became a law it would take the power out of the Railroad Commission's hands to reduce rates on the Florida East Coast Railway.

Bills were introduced as follows: To give the Tampa fair \$15,000 annually; to equalize taxes; to punish State, county and municipal officers, except sheriffs, who shall accept free passes; to extend time for completion of Florida Coast Line Canal; city charter for Lake Butler.

### Friday's Proceedings.

Tallahassee, April 7.—The Senate was not in session today. The House held a short and uneventful session and adjourned at noon until Monday at 4 p. m.

Senator McCreary yesterday introduced the bill amending existing laws on divorce, in that the time in which a decree pro confesso in non resident cases can be granted only after expiration of a period of twelve months from the time of the published notice. The present time limit is sixty days.

The usual bill for the repeal of the insanity divorce law has been introduced.

### Alachua in the House.

Alachua county did not fare especially well yesterday, so far as chairmanships were concerned, in the appointments announced by Speaker Gilchrist. Neither of her representatives was made the chairman of any committee. Mr. Tillman is on the Committees on Appropriations, City and County Organizations, Education and Journal; Mr. Roseborough on Committees on Corporations, Public Lands, Mining and Phosphate and Miscellaneous Legislation. All these committees are important ones.

The resolution adopted in the House this morning appointing a special committee to whom all measures, including appropriations, affecting State institutions, shall be referred, will result in the Committee on Education and Appropriation being shorn of much of their duties. This bill, introduced by Mr. Wall of Putnam, provides that no member from any county in which is located any of the State institutions, shall be a member of this special committee.

### The Senate.

The Senate held a very short session yesterday morning and adjourned until 4 p. m. Monday.

Shortly after adjournment the Committee on Privilege and Elections held a meeting and heard statements from Hon. C. M. Brown and Hon. J. G. Baskin, both claiming to be the lawful representative in the Senate for the 20th district, composed of Marion and Sumter counties.

### GENERAL STATE CONVENTION.

Baptist Convention Now in Session With Mt. Moriah Baptist Church.

The General Baptist State Convention, colored, opened its twenty-fifth annual meeting in Mt. Moriah Baptist Church on Thursday, April 6.

At 10 a. m. the president, Rev. J. B. Hankerson, D. D., called the meeting

to order. Rev. J. A. Davis conducted the devotions of the morning, and at the conclusion of these very fervent devotions Rev. R. S. English and other distinguished preachers were seated on the rostrum. After singing, prayer was offered.

Rev. English preached a masterly sermon based upon the subject of unity. The president at the close of the sermon announced that Rev. H. M. Fleming would present the address of welcome. This Rev. Fleming did to the pleasure of all.

The convention was next honored with an address of welcome by Rev. J. M. Deas on behalf of the denominations of the city. Rev. Deas presented the address in such an easy and cordial manner until all the messengers of the convention have decided to feel at home while here in Gainesville.

On behalf of the societies of the city quite a warm welcome was given the convention by Rev. J. Speight.

On behalf of the white Baptist church, Rev. S. B. Rogers, president of the Florida Baptist State Convention, extended a very royal welcome to the messengers.

President Sale of the Atlanta Baptist College was introduced. He made a few very interesting remarks.

Rev. D. H. Brown, M. D., in a few very timely remarks responded to the addresses of welcome. Some announcements were then made by the president, and the benediction was pronounced by Rev. English.

Thursday 2:30 the convention again assembled. Devotions were conducted and a number of distinguished visitors were introduced to the convention. Then the different associations made a financial report to the amount of \$166, and a finance committee was appointed. Up to this writing the convention assumes a better aspect than in any previous session.

The president's message was listened to with great interest.

### COLORED BAPTIST CONVENTION

Interesting Session Friday—Addresses by Pres. Sales and Rev. Rogers.

General Baptist State Convention was called to order Friday 10 a. m. Dr. J. B. Hankerson in the chair.

The journal of the last meeting was read and adopted, and then a committee of seven was appointed on nomination of officials. The reports of the several committees were listened to.

Rev. J. B. Hankerson, D. D., was re-elected president of the convention, Rev. W. A. Wilkerson vice-president, Rev. J. B. Lake secretary. This being only a partial report of the nominating committee, the remainder of the report was dispensed with until the afternoon session.

The convention was then favored with music by the choir. A collection was taken up, and the benediction was pronounced by Rev. J. T. Mason.

### Afternoon Session.

The session opened with prayer service, conducted by Rev. J. B. Reese. This service was conducted with quite a deal of earnestness.

At the close of the devotions, the president came to the chair and announced the evening session open for regular business. Quite a number of letters were collected and the amount of money turned in to the convention was quite flattering.

The convention was next favored with an address by Rev. F. A. Wells. After this Rev. Sprattling, D. D., was introduced and made quite an excellent address in favor of the Central City College of Georgia. At the close of his speech he was allowed to solicit a collection for his work. This he did to the amount of \$4.00.

The convention after this received several letters, and a sweet selection was sung and a very fervent prayer was offered by Rev. John Jamison. The benediction was pronounced and the meeting was adjourned until 7:30 p. m.

### May Have Boy's Assailant.

Opelika, Ala., April 8.—New Thurman, the negro supposed to be the one who blindfolded, bound and robbed Willie Gaines and threw him into the river near West Point, was captured near Opelika, Ala., this afternoon and taken to Elston.

## JACK THE RIPPER APPEARS IN GOTHAM

Mysterious Murder of Woman  
In a New York Hotel.

### SHE WAS STABBED TO DEATH

Police Baffled at Tragedy and They Are Looking for a Person Similar to One Who Terrorized White Chapel District of London Years Ago.

New York, April 8.—Elements of mystery recalling the stories of Jack the Ripper who terrorized the White Chapel district in London years ago, were present in the sensational stabbing today in a Thirteenth street hotel of a young woman.

She died in a hospital a few hours after the stabbing.

A patron of the hotel whom the police put under arrest, although admitting he was in the woman's company a short time before she was injured, say he did not know how she received the wound that resulted in her death.

The woman, whose name was Mamie Wilson, was stabbed in the abdomen. The wound was a very long knife wound, for which the police are unable to account, and which the man under arrest protests did not belong to him.

The character of the cut was similar to that made on the victims of the London "Jack the Ripper."

The man under arrest is James Boye, a club steward. He told the police he was with the woman last night, but said that she had left him and he did not know how she was stabbed. When he was arrested it was found that seven of Boye's teeth had been knocked out and that one of his eyes had been blacked by a blow.

### SEVENTEEN DEATHS IN ONE DAY

Cerebro-Spinal Meningitis Is Raging In New York—New Treatment.

New York, April 8.—Seventeen deaths from cerebro-spinal meningitis were reported during Thursday in Greater New York, making a total for the week thus far of 82. An average of 25 developing cases have been reported daily. A new treatment is being tried at Bellevue hospital. It consists of drawing off the fluid from the spinal canal. This is being done every other day and greatly relieves the patient. By the use of ice bags they are then kept in good condition and with little pain.

"The only question is," said one of the hospital staff, "whether we are getting all the discharge from the canal. We are not able to tell, because there is no X-ray strong enough to determine whether the fluid is clogged in the brain. It is believed that in the advanced cases it does not clog up."

### BIG CANAL FOR OREGON.

This Improvement Will Mean Much for that State.

Portland, Ore., April 8.—The state of Oregon has delivered to Major W. C. Langitt a deed conveying title to the government of the entire right of way for the Dallas-Collo canal.

This great undertaking is a canal and locks around an obstruction in the Columbia river about 100 miles east of Portland. The construction of the canal will admit of transportation by water of almost the entire wheat crop of eastern Oregon, eastern Washington and Idaho, which last year amounted to about 45,000,000 bushels to the Pacific ocean.

The length of the water-way that will be opened to the traffic will be over 500 miles and will reach from the Pacific Ocean, to Lewiston, Idaho.

### White Prisoners Break Jail.

Wainbridge, Ga., April 8.—Neal Sutton, whose sensational trial and conviction for the kidnapping and attempted assault upon little Alice Skeiton, excited so much interest a short time ago, succeeded in breaking jail here last night after midnight, with two companions, Will Fish and John Tompkins, all white men.

## BOARD OF TRADE WILL ISSUE BOOK

Will Tell of Gainesville, Its Educational and Other Advantages.

120 000 WILL BE THE ISSUE

Enthusiastic Meeting of the Board of Trade, at Which It Was Decided to Push the City, Bible Conference, Chautauqua, Etc.

The Gainesville Board of Trade held a special meeting at its rooms in the City Hall Thursday afternoon.

The meeting was called for the purpose of conferring with Dr. Clarence B. Strouse in the matter of joint advertising of the citizens and business men and the Bible Conference and Chautauqua, as well as the city in general. It was decided to secure a number of electrotypes advertising Gainesville and its advantages, said electrotypes to be used on all stationery of business men, where no objection existed.

It was unanimously decided by the board to print for general distribution 120,000 twelve-page booklets or pamphlets advertising the Bible Conference, Chautauqua, Christian Workers' Institute and the city generally. This booklet will be issued as soon as practicable, and will be distributed through the efforts of Dr. Strouse and by other means during the coming summer. It will be a handsomely printed booklet on coated paper, with half-tone engravings, and will be something of credit to the city.

### MICANOPY NOTES.

Prator's Mill in Operation—Interesting Lectures—Other News.

Micanopy, April 6.—Rev. Dr. Painter, for thirty-two years a missionary to China, and who is in his native land for a short vacation, delivered two interesting lectures at the Presbyterian church here Sunday. Upon each occasion the Doctor was greeted by a good congregation, and his lectures were impressive and instructive.

O. E. Melton has returned from Savannah and other points in Georgia, where he has been on business.

Mrs. J. A. Simonton and daughter, formerly of Micanopy but now residing in Jacksonville, are on a pleasant visit to relatives and friends here.

J. G. Peace is spending a few days in Jacksonville on business.

A. B. Chitty, formerly a resident of this place, where he was reared, spent Sunday with his parents, Mr. and Mrs. E. C. Chitty, here. Arthur recently purchased an interest in the business of the C. B. VanDeman Company, wholesale grocers, Jacksonville, where he is now holding a lucrative and responsible position. His friends here are glad to see him prosper.

Mrs. Estill Summers of High Springs has returned to her home, after a pleasant visit to her mother, Mrs. J. C. Mathis.

Mrs. E. A. Gray and aunt, Mrs. Thomas, of Atlanta, who is visiting Mrs. Gray, spent Sunday with friends in McIntosh.

Mrs. E. A. Smith of Tacoma was shopping in town one day this week.

The millinery opening of S. H. Benjamin, which was held from March 31st to April 1st, inclusive, was the society event for the ladies of Micanopy, and was largely attended and reported a most successful function, a great many fine hats being disposed of. The opening was held under direction of Miss Margaret Peace, milliner for Mr. Benjamin, who is said to be one of the most stylish and tasty in the county.

J. H. Prator has completed his saw mill, and the same is in operation. The plant has a cutting capacity of 15,000 per day, and will furnish employment to a good force of hands, which will naturally mean a good thing commercially for the town. In addition to his saw mill, Mr. Prator will continue to operate the grist mill and gin.

kinds from this section is beginning to be heavy. The country is besieged by transportation and commission men, all anxious for their share of the business. It is estimated that the diversified crop along the Gainesville and Gulf railroad this season will be the largest for several years. Peas and beans and cukes are looking especially fine.

Rev. W. C. Foster of Alachua was a visitor to friends here Wednesday.

The orange growers in this section are especially happy over the condition of their groves, which was never better. The trees are full of bloom, and the prospects are that the crop the coming season will be the largest in the history of this section, not even excepting the big freeze. The trees are in a most healthy and prolific condition.

### BIG COTTON DEAL.

LaFayette Mathews of Bland Sold 150 Bales to the Brantley Company.

Rumor reached this city Friday of one of the largest cotton deals made in this county recently, when LaFayette Mathews of Bland, one of the largest cotton growers in the State, sold to the Brantley Company of Blackshear, Ga., 150 bales of cotton, aggregating \$8,845. Mr. Mathews sold a few bales of cotton early in the season, but held his principal crop pending better prices. Being one of the most successful farmers in the county, he was not compelled to sell his cotton until he could secure the desired price.

### About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by all druggists.

### Strawberry Movements.

While the majority of the truckers and growers of Alachua county are devoting their principal time to the raising of vegetables, there is quite an acreage in strawberries, and the movements from points along the Gainesville and Gulf south, and the Atlantic Coast Line south, have begun. A great many berries have been shipped already, notwithstanding that the movement did not commence until about ten days ago.

Probably the most extensive grower and shipper of strawberries in Alachua county is W. H. Sanders of Micanopy, whom it is said has also one of the handsomest and most prolific crops in the county. Mr. Sanders has been shipping berries for about a week, and now has quite a force gathering and packing this luscious fruit.

All berries shipped by Mr. Sanders from which he has received returns so far, brought good prices in the market, since they were very choice. Mr. Sanders expects to make a good thing off his crop this year.

### Frightful Suffering Relieved.

Suffering frightfully from the violent poisons of undigested food, C. O. Grayson of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes, "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25¢ at all drug stores, guaranteed.

## EX-STUDENTS HOLD A ROUSING MEETING

Want State to Appropriately Money to Properly Equip E. F. S.

SUPERINTENDENT POUND TALKS

In an Eloquent and Impressive Manner He Told of the Needs of the School, Which, if Furnished, Means a Half Thousand Students in Two Years.

In pursuance to the call which appeared in The Sun, the ex-students of East Florida Seminary assembled in the council chamber Wednesday evening for the purpose of discussing the needs of the Seminary in the matter of buildings, etc.

The meeting was called to order by Mayor W. R. Thomas, a graduate of the school, who explained its purpose.

Chairman Thomas presented Superintendent Jere M. Pound of the Seminary, who addressed the meeting on the needs of the institution and its future possibilities. "East Florida Seminary has always enjoyed one of the foremost positions of the schools of not only the State, but of the South," he said, "and the greatest disadvantage under which we have been laboring, to my knowledge since I have been in charge as superintendent, is the cramped condition of its quarters. It should receive proper aid from the State, and thus relieve this cramped condition of affairs."

The speaker, in an impressive manner, showed the urgent need of the Seminary for new and more commodious buildings, and new and more modern equipment, and said that with these secured the school would have five hundred students within two years. He laid particular stress upon the excellent work the school has accomplished and is still doing in the education of young women.

Addresses were made by W. N. Wilson, W. B. Taylor, Dr. J. F. McKinstry, Jr., Dr. J. Harrison Hodges and others, and it was the consensus of opinion among those present that, considering the excellence of the work the school is doing, the State should appropriate \$150,000 for new buildings and equipment.

Upon motion the chair was requested to appoint a committee to look after the passage of such a measure through the present Legislature, when the meeting adjourned.

Chairman Thomas will make the appointment during the present week.

## SCROFULA A Disease We Inherit

The tainted blood of ancestors lays upon the shoulders of innocent offspring untold suffering by transmitting to them, through the blood, that blighting disease, Scrofula; for in nearly every instance the disease can be traced to some family blood trouble, or blood-kin marriage which is contrary to the laws of nature. Swelling, ulcerating glands of the neck, catarrh,

weak eyes, sores, abscesses, skin eruptions, white swelling, hip disease and other deformities, with a wasting of the natural strength and vitality, are some of the ways this miserable disease manifests itself. The poison transmitted through the

Scrofula appeared on the head of my little grandchild when only 18 months old, and spread rapidly over her body. The disease next attacked the eyes and we feared she would lose her sight. It was then that we decided to try S. S. S. That medicine at once made a speedy and complete cure. She is now a young lady, and has never had a sign of the disease to return.

A disease which has been in the family blood for generations, perhaps, or at least since the birth of the sufferer, requires constitutional treatment. S. S. S. is the remedy best fitted for this. It cleanses the blood of all scrofulous and tuberculous poisons, makes it rich and pure and under the tonic effects of this great blood medicine the general health improves, the symptoms all pass away, there is a sure return to health, the disease is cured permanently while posterity is protected. Colorado has another storm on its hands, and it has fanned a cool zephyr clear to Florida.

The Osar is in a peculiar situation. He hates to give up that he is whipped, but is awful tired of running.

Tennessee now has a "Jim Crow" street car law. The conductor will designate places for the blacks.

President Roosevelt, who is now en tour, prefers to eat rather than speak, and when called out at St. Louis kept on with his attack on trust beef.

A volcano has made Japan larger by giving her a new island. If they could only get a volcano to heave up a few ships they sunk for the Russians they might have another navy.

The Tennessee Legislature has appropriated \$250,000 to Peabody college. The State educational institutions of Florida will perhaps be remembered by our own legislators.

The envious people of some of our sister States would perhaps like a small strip of our territory, so that they might be in it as a winter resort. But they are by fate assigned to the ironmonger's toil.

Weary Walter Retlan of Buffalo, N. Y., walked into Jacksonville, Tuesday, having made the journey on foot to pay an election bet. He will remain until June 1st, when he will receive money to return by rail.

Many people in this city are anxious to see a new hotel erected in Gainesville, but they will look in vain until we get a new charter and put in a system of sewerage. A system of sewerage is necessary for a city the size of Gainesville.

Jacksonville will have a bill presented to the Legislature to extend the limits of that city, so that the people who live in the new addition may enjoy the privileges, such as fire protection, city lights, city water and police protection. Those living on the outskirts of Gainesville will be able to enjoy similar privileges when we get our new charter.

Judging from what we can hear from reliable men who are in Japan, and those who have recently returned from that country, the report that the Japs do not take good care of their Russian prisoners is without the foundation of fact. One gentleman says he has taken the pains to look up the matter, and says the prisoners have most excellent care. Probably the ground for complaint is that the Japs insist on their keeping clean.

The warm rains and weather of the past week have helped the flowers along amazingly. The roses in some of the gardens about the city are a sight to behold. The large number of rose bushes at the home of Dr. Lucretia Robb are full of blooms, and Mrs. G. S. Merchant on East Liberty street has a mammoth rose bush—a tree almost—that is filled with the handsomest of white blooms. The city of Gainesville never looked better than it does this spring, and it will improve with each year.

## ABOUT FLORIDA.

Those who come to Florida and see for themselves are better able to judge of its comforts and the people than the editor of some paper firing at long range at what he can't see with a globe sight and will never get near enough to "taste and see" for himself of the good things here. Then again, there are people who are afflicted with incurable diseases who come here, and because they could not get cured, although many experience relief while here, find fault with nearly everything. Their friends at home get tired of seeing them around feeling so miserable and kicking at everything, and are glad to get them away. Such people will never be pleased wherever they go.

The talk that prices are exorbitant in Florida is not borne out by the facts. People who are able to do their own housework can rent rooms and live as cheap here as in the North, where a fifty dollar coal bill for a small heating stove is nothing unusual during the winter. And when a man in Florida goes much over seven or eight dollars for fuel he thinks it is tough.

Board can be had from \$5 a week up, and the resort hotels, where people come for pleasure, have no higher rate than those at the summer resorts in the North. Prices vary both North and South. People who have money to throw at the birds, either North or South, will always find a flock to receive their offerings. You don't have to "blow yourself," but if you should want to, there is no law North or South to prevent you from doing it.

The persons who go away from home and expect to find the same comforts they are leaving will often be disappointed. Some who find fault at everything are getting better than they do at home. There will always be kickers, and they are often compelled to go away from home, and if it were not for their propensity of showing ugly resistance, people would not be aware of their existence.

## PRIMARY RECOMMENDATIONS.

In Gov. Broward's message his primary law recommendations will no doubt attract the careful attention of our legislators. He speaks as follows:

"I recommend the primary law to be so amended as to make the calling of primary elections mandatory upon the committee now empowered to call the primary election, instead of optional, as it now is.

"I also recommend that all persons who may be candidates before any primary election in this State be required to file with the committee calling the primary election a sworn itemized statement of all expenses incurred by him in said primary election, and to state therein the source of all contributions to his campaign fund, and fixing a severe penalty for failure to file such statement.

"I further recommend that the law be amended so as to provide severe penalties for:

"Miscounting of votes by inspectors and clerks in all elections; and for

"Bribery and intimidation of voters in any election. And I further recommend that any person accepting a bribe be exempt from punishment, who will inform or testify against the person or persons who bribe or intimidate him in any way.

"I further recommend that a law be enacted requiring the payment by counties of all such expenses of holding primary elections in the same manner as the expenses for holding general elections are now paid."

The primary should be upheld in all its dignity, and if it is worthy and has come to stay, let all stand by it to the letter. Good laws, strictly enforced, make a contented people, as those who cannot live up to them will have a desire to emigrate.

## RAILROAD TO KEY WEST.

The Miami Metropolis says that unless indications belie the fact, there will be something doing very shortly in the building of the proposed extension of the Florida East Coast Railway from the main land across and via the keys to Key West.

For some time past reports from the keys were to the effect that the survey work was about finished, but as information covering this venture is very difficult to obtain, but little other than that fact could be announced, and although it is now known that the survey work has been completed there is still nothing authentic about the progress of the work, though the "Outside Board," which knows everything, and usually has it pretty correct, states that the work of building is on the verge of commencement.

## THE STATE HORTICULTURAL SOCIETY.

The eighteenth annual meeting of the Florida State Horticultural Society will be held in Jacksonville, commencing the evening of the 9th of May and continuing the 10th, 11th and 12th; and it is earnestly hoped that this meeting will be the largest in the history of the society.

The Jacksonville Board of Trade has extended to the society the use of their magnificent auditorium in which to hold the meetings, and are making preparations to entertain the members in their usual liberal and hospitable manner.

The transportation companies have made a rate of one fare, plus 25c for the round trip, but members must have a certificate of membership which is furnished by the society, to surrender to the ticket agent before the ticket will be issued at the reduced rate. So it behooves members to write early for their certificates, which can be had by sending \$1 to the secretary, Mr. E. O. Painter, Jacksonville, Fla.

The annual reports of this society are alone worth more than the \$1 charged for membership fees, as they contain the experience of some of the best horticulturists and agriculturists in the State, including valuable papers from some of our scientific men.

The society is doing a good work and needs the support of every one interested in the development of our State. Its ad of 400 members, it should have 4,000. You can help it by sending \$1 to E. O. Painter, secretary, Jacksonville, Fla.

## UNIFORM TEXT-BOOKS.

The idea of having uniform text-books in the schools of the State is one that will meet with general approval. It is a plan that will ultimately be adopted, if not at the present time. It has been suggested that the price of such text-books should be kept down to the minimum, and not allow the book publishers to rob the people. This can be done with the right men to look after the matter.

Should the measure be passed it has also been intimated that the publishers replace the old books with new ones free of cost. Another plan is for the State to print its own books. The law, however, for uniform text-books seems to be generally favored.

It seems as though an appeal to the State Legislature to provide funds for the Florida Institute for the Blind and Deaf would not be necessary. It is the duty of the commonwealth to religiously look after its institutions, and in this particular instance, where the inmates are some of our worthy offsprings who are afflicted through no fault of their own, it would look as though no long drawn-out appeal would be necessary. The State has a bounden duty to perform; let its representatives see that it is done well. Who knows but that their own may be obliged to enjoy its comforts some day?

The observance of Decoration Day, April 28, should be made more general than the present arrangements would indicate, and tribute should be paid to the memory of our dead heroes, who sacrificed their lives on their country's altar, and while we are honoring the ones who have laid down their lives, let us not forget the living who gave their husbands, fathers and sons, and now are left without the support of their loved ones.

The sunsets in Florida are equal to those of Italy, and on Wednesday evening those who watched the sky as the sun sank in the West, saw the grandest picture ever beheld. The clouds stretched across the sky in furrows, each furrow being tipped with a delicate red on blue clouds. The whole scene was free to all, and The Birmingham (Ala.) News is informed that it was no bunco game.

There are many ways for spending the cash the State has on hand, and many worthy institutions that need the immediate attention of the Legislature. It would be a good idea to help those deserving ones first, and then if we have money to invest in other ventures, let it be used where it will do the State the most good.

In registering "a kick" against a bill for ribbons for his typewriter, a Kansas county judge was heard to remark: "She is a nice girl, but the county is under no obligation to buy her 'fixins' to dress up with."

Nan Patterson and Cassie Chadwick are still furnishing short paragraphs for the city papers.

## NORTH GAINESVILLE OPPOSES CHARTER

Don't Like Idea of Being Taken  
Into the New City Territory

SO SPEAKERS WILL EXPLAIN

Attorney Robt. E. Davis and Mayor Thomas Will Address the People of North Gainesville Monday Night, and Explain Advantages of New Charter.

It seems that some people of North Gainesville, who own property in that thriving burg, do not appreciate the idea of the extension and amendment of charter of the city of Gainesville, which was passed in a meeting of the citizens at the court house Wednesday, and as a result Attorney Robert E. Davis and Mayor W. R. Thomas have consented to address the people of that suburb at North Gainesville Hall Monday evening at 7 o'clock on the proposed charter, with special reference to its relations to the people of North Gainesville.

As will be seen by advertisement in The Sun, the people of North Gainesville, feeling that they would be burdened with municipal taxation without representation, have taken steps to incorporate, but those who have advocated the proposed extension declare it will be a good thing for all suburbs, and those taken in will be benefited.

The people of North Gainesville are cordially invited to be present at the meeting Monday evening, as Messrs. Davis and Thomas will endeavor to explain fully the intentions and purposes of the order.

### Believed Alabamian Murdered.

Birmingham, Ala., April 7.—A special to the News from Tuscaloosa, Ala., says that A. J. Lindgren, a well known citizen, who has disappeared, is believed to have been robbed and murdered last night near the Warrior river bridge, and his body thrown into the river. His horse and buggy were found near the bridge this morning. Near by was Lindgren's empty pocketbook and coat with four bullet holes in the latter. Evidences of a struggle were to be seen and blood stains leading to the bridge. The police are dragging the river with the hopes of finding the body.

### Cheated Death.

Kidney trouble often ends fatally, but by choosing the right medicine E. H. Wolfe of Bear Grove, Iowa, cheated death. He says: "Two years ago I had kidney trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since, as I find they have no equal." All druggists guarantee them at 50c.

## COUNTY WILL PAVE WITH HARD BRICK

Order Passed for Pavement of  
Walks About Square.

IS AN ENTERPRISING ACTION

Observing the Energy Displayed by the  
City in Constructing Hard and Durable  
Streets, Commissioners Decided to Do  
County's Share.

The Board of County Commissioners has passed upon an issue which will receive the approval of every enterprising taxpayer of the county. This was the order, agreed upon at the last meeting of the board, to pave with vitrified brick the sidewalk bordering on the four sides of the court house square with vitrified brick, which will make a durable walk, and which will last for a lifetime and greatly enhance the value of the property.

This matter has been under consideration for some time. The board having noted the enterprise of the citizens of Gainesville in constructing MacAdam and other substantial streets, felt it a duty they owed to constituents and the county property to place this walk.

The walk as specified in the order will be ten feet in width on all walks around the square, and the material used is to be of first-class vitrified brick. It is estimated that the walks can be laid at an expense not exceeding \$1,000, which will at least greatly increase the value of Alachua county's most important and valuable possession.

The proper thing for the city to do, since this order has been passed, is to construct crossings at intersecting lines of the same material, which will no doubt be done at the proper time. The city has a progressive council, and it matters not what the result of the municipal election may be next Tuesday, that body will continue to be progressive, since none but good, energetic men have sacrificed themselves as candidates for the good of the city. This matter will no doubt be brought up before the City Council at a later date.

### WANTS TAX RETURNS.

Assessor Colson Complains That Owners  
Are Too Slow.

County Tax Assessor Willis W. Colson complains that owners of personal and real property throughout the county and in the city are too slow in making their returns, which has greatly inconvenienced him in the past, and is continuing to do so.

"I cannot understand for the life of me why a property owner cannot fill out the blanks furnished him and return them to this office in a reasonable length of time," remarked the assessor Thursday. "I do not attempt to say it is because of the unwillingness of the average taxpayer, but simply because they are negligent and procrastinate from day to day. If they had any idea of the extra trouble they give this office, I am tempted to believe that they would be more prompt."

Assessor Colson states that taxpayers in the city of Gainesville, almost within the shadow of the court house, have the same habit. These property owners are circulating about the street every day, and could easily call at the office and leave a report of their valuations. Instead, however, a great many of them put it off until the last moment, which compels the assessor and his assistant to work long hours unnecessarily.

Assessor Colson specially urges the return of all property, real and personal, not later than the 15th inst., as he will begin the revision of his books at that time. All returns afterward received will cause not only extra work, but may result in misrepresentation and errors through illegibility, as said returns must be interlined.

## BOARD OF TRADE WANTS BRICK YARD

Wants to Develop Wonderful Clay Lands of County.

THE DEPOSITS ARE VERY FINE

The Clay is of a Quality Which Will Make the Hardest Brick and Tile, and Attention of Manufacturers Will be Called to Its Abundance.

The Gainesville Board of Trade wants a brick factory, and is working to that end.

At the meeting of the Board, held Wednesday afternoon, this matter was brought up and thoroughly discussed. It was the opinion of members of the Board who are thoroughly posted that there are in the vicinity of Gainesville inexhaustible deposits of as fine clay for brick making as can be found in the country, and these members did not see why a brick of superior quality should not be manufactured, thus adding to Gainesville another industry of great commercial importance.

After a thorough discussion of the matter a committee comprising W. B. Taylor, C. C. Pedrick and W. M. Pepper was appointed to investigate the clay lands adjacent to Gainesville, ascertain the price at which they could be purchased, and make report to this Board at the next meeting.

A brick and tile factory would mean a great thing for Gainesville. The clay material found in this section is exceptionally adapted for this purpose, being of a very firm consistency when properly tempered and burned, and it is to be hoped that the efforts of the Board of Trade to induce the establishing of a factory here will result successfully.

The committee is now at work in the task assigned, and will be in a position to make an intelligent report at the proper time.

Children especially are fond of dainties, and the housekeeper must look carefully to their food.

As good cake can be made only with good eggs, so also a cake that is healthful as well as dainty must be raised with a pure and perfect baking powder.

Royal Baking Powder is indispensable in the preparation of the highest quality of food. It imparts that peculiar lightness, sweetness and flavor noticed in the finest cake, biscuit, doughnuts, crusts, etc., and what is more important, renders the food wholesome and agreeable to young and old.

## READ THIS.

Stevenson, Ala., June 6, 1901.

Dr. E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very serious nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Koot for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctors said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can say for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success, I am  
Yours truly,  
W. C. DANIEL.
